

Green Economics Institute

Divestment, Green Investment and Carbon Budgets

A one-day conference at COP23 in Bonn

Wednesday 15 November, 10:00 - 17:00

Universitäts Club, Konviktstrasse, Bonn, Germany

The Green Economics Institute provides Supporters and Campaigners from all around the world a unique opportunity to come together and discuss:

- Divestment from fossil fuels
- Will the threat of litigation add to ethical considerations to accelerate divestment from fossil fuels?
- Is Environmental Investment ready for a major switch in investment patterns?
- How can Environmental Investment help move towards more inclusive and equitable societies?

- What economic and political structures are needed for a carbon budget of 2 tonnes per capita by 2022?

Registration and Bookings

NOW OPEN!

Please email The Conference Manager at greenecomicsinstitute@yahoo.com to discuss your idea and/or to participate in the conference, request a booking form and find out about practical details for the conference.

We reserve the right to update as necessary

Proposed Sessions

10:00 - 11:00 Introduction

Setting the scene and asking the questions

Global carbon budgets and economy

An update on where we are with the carbon budget, what are the economic trends driving emissions

11:00 - 12:00 Panel: Sudden climate flips

What are the implications of sea level rises?

12:00 - 13:00 Panel: Divestment, investment, finance for change

Concentration of responsibility for the vast majority of emissions in the hands of less than 100 companies

Will litigation for extreme climate damage change the financial scene?

Ending perverse incentives

Financial initiatives to enhance environmental investment

13:00 - 14:00 Lunch

14:00 - 15:00 Panel: Rationing carbon

Looking at structures for individual carbon rationing to 2 tonnes per capita by 2020.

15:00 - 16:00 Panel: Environmental investment for a more equitable world?

Will Environmental Investment necessarily bring about fairer societies?
